MONTANA'S MOUNTAIN MAJESTY

Hiking in Big Sky Country and Yellowstone National Park

The area of southwestern Montana that surrounds Yellowstone National Park is an integral part of the Greater Yellowstone Ecosystem, the richest wildlife preserve in the lower 48 states. Millions of acres of pristine forests, meadow land, rugged mountain peaks, and river bottoms provide a rich habitat for the abundant wildlife that "knows no park boundaries." The region also provides premium backcountry hiking in the spectacular Spanish Peaks, Gallatin and Madison Ranges. From every rocky ridge the 360 degree panorama is of massive mountain peaks....as far as the eye can see!

Our Big Sky Country hike begins in Bozeman, Montana, only 90 miles north of Yellowstone. The upbeat atmosphere of Bozeman is that of "a small town with big britches." While images of cowboys, pioneer women, and rowdy miners are still reflected by the locals' faces, the city's historical downtown has everything from gourmet restaurants to wonderful art galleries! The famous Museum of the Rockies, located on the Montana State University campus, is the permanent home of the largest and most complete Tyrannosaurus rex skeleton on exhibit anywhere in the world.

After flying into Bozeman, you travel south by van with our guide though the Gallatin River Canyon to the 320 Guest Ranch near Big Sky, Montana. (Big Sky is the mountain resort made famous by the late newscaster, Chet Huntley). "The 320", our base for the week, is located just a short distance from Yellowstone Park's north boundary. In 1898, when the west was wilder, two homesteads totaling 320 acres were combined to form the 320 Ranch. In 1936 Montana's first woman doctor and first pathologist, Dr. Caroline McGill, purchased the working cattle ranch as a rest and relaxation retreat for her friends and patients. Today, the 320 offers comfortable, modern, log cabin accommodations, a bit of western history, and an abundance of mountain air.

With our Montana-based, naturalist guide, you'll hike the trails in the Spanish Peaks, the Madison Range, and into one of Yellowstone National Park's Geyser Basins, leaving the crowds at the roadside! This is Montana hiking at its finest. Hikes are moderate to high energy, up to 12 miles in length, and at altitudes up to 10,000 feet. This trip is for women who LOVE to hike.

We also spend an exciting day on a canopy zipline adventure and whitewater rafting trip on the Gallatin River, one of Montana's prime whitewater rivers!

For superb mountain hiking in the stunning Greater Yellowstone Ecosystem, join ADVENTUREWOMEN for our premier hiking trip in Montana—the "Last Best Place!"

HEALTH INSURANCE, HIKING EXPERIENCE, AND PHYSICAL CONDITION REQUIRED

You **MUST** have your own health insurance, and not have any physical problems or condition that would be adversely affected by hiking and residing at altitudes of 6-10,000 feet.

This hiking adventure requires that you be in excellent condition, and be able to hike approximately 5-13 miles per day in the mountains. This means that the terrain is NOT flat! The most you carry on your back is a day pack with your lunch, camera, rain gear, water, etc. The hikes are at elevations of approximately 6-10,000 feet. Being in excellent physical condition will be essential to your enjoyment of the trip, as well as to your personal safety, and the safety of the group. Although it is not necessary that you have extensive hiking experience, it IS necessary that you are in very good hiking condition prior to your departure. We recommend, with your doctor's approval, that you begin a walking program as your "training" for this adventure. Begin by walking a few miles at least 4 times per week, and work up to walking about 10 miles or so.

Early afternoon we'll horseback ride from the ranch, to view the beautiful scenery of the surrounding area from the back of a horse. After riding you have time to kick back, read a book, take a nap, or just enjoy the ambiance of the front porch at the 320 Ranch.

DAY 3 — Monday, July 29 *A Day of Hiking in Yellowstone*

After an early breakfast, we head into Yellowstone National Park for a 6 mile round trip hike. Getting off the main road and walking is a quiet way to experience Yellowstone National Park and learn about its vast diversity. Yellowstone, the world's first and most beloved national park, contains within its borders more than two million acres and the earth's largest concentration of hydrothermal features. On our way to or from the trailhead we stop to explore some of these famous geysers and hot springs. We picnic along the way and return to the 320 in time for dinner on your own at a local restaurant, or at the 320 Ranch.

(Breakfast and Lunch)

DAY 4 — Tuesday, July 30 *Beehive Basin Walk*

Today's hike to this classic alpine basin launches at 8,000 feet, where we get a head start into this beautiful environment. This spectacular 5-6 mile round trip hike, with a 1,300 foot elevation gain, delights you with bountiful wildflowers, crystal-clear alpine lakes, glaciated mountains, and the magic feeling of hiking in Montana's incredible high country. It leaves you feeling exhilarated, and at the same time, with peace in your heart that only a hike in the wild country can bring.

Tonight we celebrate with dinner at the 320 Steakhouse.

(Breakfast, Lunch, and Dinner)

DAY 5 — Wednesday, July 31 *"Zip and Dip": Canopy Zipline Adventure and Whitewater Rafting*

This morning we experience one of Gallatin Canyon's newest and most exciting activities, a zipline canopy tour! During this tour you'll get to climb into the forest canopy, a magical world that exists only in the treetops. From the platforms in the pine forest canopy, you'll soar like a bird over wide open fields dotted with wildflowers, through forests, and across the river. Connecting to nature in a new way, you'll gain a deepened sense of "place" from the bird's eye views of the environment and geography that you witness.

After lunch, we trade ziplines for paddles, and enjoy one of summer's most popular pleasures, whitewater rafting on the Gallatin River! Each boat has a raft guide and we all paddle right, paddle left. Let's go, team!!

Before dinner, you may want to sit on your deck and enjoy the pristine silence, take a walk around the ranch, or watch the wranglers put the horses out to overnight pasture.

Tonight we are treated to a traditional hayride and western barbecue dinner on the banks of the Gallatin River!

(Breakfast, Lunch, and Dinner)

DAY 6 — Thursday, August 1 *"Guide's Choice" Hike*

This morning we say good-bye to the 320 Ranch and depart early for our 6-8 mile round trip hike.

There are so many options for hikes in this beautiful part of the Rockies that we like to leave some flexibility for our guide to decide on today's destination.

ABOUT ADVENTURE TRAVEL TODAY

PLEASE READ CAREFULLY!

At AdventureWomen, we would like to ensure that all participants understand that our excursions are *adventure travel vacations*, and not "tours." We define "adventure travel" as travel in which one *actively participates*, as opposed to a "tour," in which one is more or less a passive observer. AdventureWomen designs and organizes vacations all over the world for women who want to experience an *active, out of the ordinary vacation, and meet new friends*. Most of all, however, we want our trips to be fun!

In this spirit, the successful adventure traveler should be a *good-natured realist* and have a *sense of humor*! *Adventure vacations, by nature, require that participants be self-sufficient, flexible, and able to accept situations as they exist*, and not just as they would have preferred or expected them to exist. The constraints of scheduled group traveling also necessitate that each of us be understanding of and sensitive to others. *Being on time is important*, and contributes to the congeniality, success, and well being of both individuals and the group.

However, a favorite of ours is Porcupine Meadows, a high rolling valley surrounded by stunning mountains. The hike takes us through wildflower meadows and up to a high point that overlooks the beauty of the Gallatin and Madison Ranges. We then wander back through the high grasses and wildflowers, crossing a number of bridges that take us into wildlife habitat that supports both local birds and mammals.

We'll celebrate tonight with a Farewell Dinner at AdventureWomen's headquarters in the Bridger Mountains outside Bozeman.

(Breakfast, Lunch, and Dinner)

Overnight Comfort Inn Bozeman

DAY 7 — Friday, August 2 *Departure*

Depart Bozeman, OR stay a longer to explore the wonderful, western town of Bozeman.

(Breakfast)

WHAT TO BRING

Since weather is always unpredictable in a mountain environment, you must dress accordingly, and bring the proper clothing and outdoor gear to be safe and comfortable. July daytime temperatures in these mountains usually average in the 70s and 80s; evenings can cool off rapidly, sometimes into the 40s. Most days you will be comfortable hiking in a T-shirt and shorts. However, even in July, high elevation hikers must be prepared for rain storms that can rapidly turn to snow. Warm clothes are essential, even if it is 80 degrees when you begin your hike.

- Medium-weight hiking boots. It is best not to wear shoes, even if they are walking shoes, because ANKLE support is absolutely essential in mountain terrain. Please do not buy heavy leather boots as there are numerous medium-weight quality hiking boots on the market. Asolo, Garmont, Merrill, Vasque, and other makes are widely available and designed especially for women. Since they are waterproof, Gore-tex boots, although a bit more expensive, are our first choice. Other boots should be waterproofed with one of the excellent waterproofing products available such as Nikwax. Make sure your boots fit properly and are well broken-in. Wear them around town to thoroughly break them in. Please do not come on this trip with a pair of boots you have never worn before!
- Rain gear. Weather in the mountains can be extremely variable, and you should be well prepared for whatever conditions occur. Therefore, it is very important that you bring a good rain suit (jacket and pants). A rain parka or poncho does not keep your legs and feet dry, and it is important that your entire body stays dry in a down-pour (be it rain or snow). Your rain parka can also act as a lightweight wind jacket. See attached sheet for a suggested rain suit, or the TravelSmith catalog which is sent to you at registration.
- One wool or fleece sweater, one wool cap, and gloves. The wool sweater or fleece jacket can be layered under your rain parka to act as a warmer jacket.
- An extra pair of comfortable shoes such as tennis shoes or sport sandals to wear in the evenings... ahhh!
- Day pack. Your pack must be large and comfortable enough to carry your lunch, cameras, rain gear, drinks and 2 water bottles on all hikes. Please note that fanny packs are not suitable.
- 2 water bottles. We recommend the 24 oz. Nalgene Everyday OTG Tritan Bottle. Made of Eastman Tritan™ copolyester, the bottle is completely BPA-free. Tritan™ copolyester provides excellent impact resistance and is suitable for both warm and cold beverages. Note: Drinking large quantities of water ensures that your body acclimatizes to high altitudes more easily

- Long pants and hiking shorts, several pairs. Excellent hiking clothing is available though the TravelSmith catalog.
- Long-sleeved shirts and T-shirts, underwear, sleepwear.
- Bathing suit for a dip in the ranch's hot tub.
- Socks. It is best to wear 2 pairs of socks inside your hiking boots, a pair of wool socks, and a very thin pair of liner socks underneath the wool socks. We like Thorlo or Smart Wool hiking socks and polypropylene liner socks which wick away moisture to reduce blistering. Bring plenty of socks!
- Sun hat and sunglasses, as sun protection is crucial at high elevations.
- Bandannas. Bring 2 or 3 (100% cotton) for instant sweat bands and other uses too numerous to mention, some of which you have never even dreamed! Besides, it's an AdventureWomen tradition.
- Sunscreen, lip balm with SPF, insect repellent, lotion (Montana's humidity is quite low), all with no fragrance.
- Toiletries, including toilet paper. However, remember that absolutely all used paper must be carried out of the backcountry in small ziplock bags. To cover all your bases, you can also include an Ace bandage, Pepto Bismol, Immodium, and Correctol!
- 6 quart-size Ziploc bags to carry in your day pack, for waste paper and left over food.
- Lightweight flashlight.
- Small travel alarm clock.
- Swiss Army knife or equivalent with scissors (be sure to pack this in your checked luggage, not your carry-on).
- Earplugs (for snoring roommates? howling coyotes?).
- Camera, plenty of film (or memory cards), extra camera batteries and battery charger. The disposable panoramic cameras are ideal for this trip!
- Extra clothes for evenings. Nice, casual clothes for relaxed dinners out.
- Regarding foot care: To prevent blisters, many hikers use moleskin. However, we recommend bringing a small roll of ordinary duct tape as an alternative. Applied when you feel a "hot spot", before a blister forms, it reduces friction much better than moleskin. If you develop a blister, Spenco "2nd Skin" is a very comforting necessity. Your foot care kit should also include: cloth Band Aids (not plastic), individually wrapped alcohol pads, a small tube of Neosporin or other antibiotic cream, and foot powder.
- Optional: lightweight long underwear or tights, lightweight binoculars, journal, a relaxing book, and field guides to western wildflowers, mammals, and birds.
