### Reykjavík to West Iceland

Stretching from soaring peaks on its eastern boundary to the ghost-haunted shores of the Atlantic in the west, Snæfellsjökull National Park is a microcosm of Iceland's bewitching geography. Its crowning glory, Snæfellsjökull Glacier, rises 4,800 feet above sea level; its underlying volcano has been dormant for nearly 1,800 years.

#### Breiðafjörður Bay Boat Trip

Sailing around Breiðafjörður's innumerable islands, this popular aquatic voyage offers a glimpse of the fjord's fairytale-like scenery: variegated rock faces, areas of historical interest, along with the strongest ocean currents anywhere on Iceland's coasts. During the summer, the area abounds with birdlife: shags, puffins, black-legged kittiwakes, arctic terns, fulmars and eider ducks. Even the king of Icelandic birds, the white-tailed eagle, sometimes makes an appearance. A definite highlight of the tour is the towing of the dredge along the ocean floor, when different kinds of shellfish are scooped up from the bottom of the ocean: scallops, sea urchins, crabs, starfish, sea cucumbers, some of which can be eaten fresh (scallops and sea urchins, for example).

#### Lunch on Your Own

Enjoy lunch on your own today in a local café.

#### Snæfellsjökull National Park

Spend some time exploring in Snæfellsjökull National Park, enjoying stunning views all along the way. Declared a National Park in 2001, the area has an astonishing variety of natural landscapes, including moss-covered lava fields, pebbled beaches, and rugged cliffs. Explore with the other women on your trip on foot for different vantage points in this amazing natural setting.

#### Dinner

Leave the park and drive about two hours to your hotel. Enjoy dinner as a group when you arrive!

### West Iceland

Enjoy a full day exploring the stunning and dramatic landscapes of Iceland. The contrasts seem to be made for beautiful photographs.

#### Visit Cave Víðgelmir

Visit the largest and most spectacular Lava Cave in Iceland this morning, Cave Víðgelmir. Hailed as the mightiest of Iceland's caves, its diversity and grandeur is unrivaled. Just shy of 5,250 feet, the cave features amazing colors and lava formations that lurk in the depths of the earth.

#### Visit a Goat Farm

Stop for a visit at the Icelandic goat farm owned by Johanna Bermann. In the year 2000, Johanna secured the last four hornless goats in Iceland, then on the brink of extinction, and bred them back to a sustainable population. She established the Icelandic Goat Conservation Center, and there are now over 800 Icelandic goats in the country. You may have the chance to come face to face with Bambi, the famous goat from Game of Thrones! After your visit, enjoy lunch on your own at a local restaurant.

#### Lunch

Enjoy a tasty lunch with the group today.

#### Hraunfossar Waterfall

Visit the beautiful Hraunfossar waterfall, where cascades of spring water flow down the huge Hallmundarhraun lava field and trickle across the rugged landscape.

#### Europe's Largest Natural Hot Spring

End the day by soaking in the Krauma Spa at Deildartunguhver. The hot water originates in Europe's most powerful hot spring Deildartunguhver, at a temperature of 100°C (212°F). Krauma has a total of six baths, five warm and one cold. No extra chemicals are needed to keep the pools clean, as the water is constantly being replaced because of the rapid natural flow rate of the hot springs. In the changing room has a separate locker for every guest. The room has a spacious dressing table with large mirrors and good lighting.

Your next destination is historic Thingvellir National Park. You will see the spectacular natural amphitheater, where almost every important moment in Iceland's history has taken place. Today Thingvellir is still regarded with reverence by Icelanders, its historical weight reinforced by a serene natural beauty. Thingvellir sits right on top of the Mid-Atlantic Ridge, and you can clearly see the dividing plates and the lake-filled-valley that has developed between the plates.

#### Great Geysir Hot Spring and Gullfoss

Continue to the Great Geysir hot spring area and Gullfoss Waterfall (the Golden Waterfall), two of Iceland's most famous sights. Although the Great Geysir itself has been inactive since the 1960s, its neighbor geyser, Storokkur, fires off a 30-meter-high spout every few minutes.

### Adventure Travel Today

We define "adventure travel" as travel in which one actively participates, as opposed to a "tour," in which one is more or less a passive observer. AdventureWomen designs and organizes trips all over the world for women who want an active, out of the ordinary experience, and meet new friends. **Most of all, we want our trips to be fun!** In this spirit, the successful adventure traveler should be a good-natured realist and have a sense of humor! Adventure trips, by nature, require that participants be self-sufficient, flexible, and able to accept situations as they exist, and not just as they would have preferred or expected them to exist. The constraints of scheduled group traveling also necessitate that each of us be understanding of and sensitive to others. Being on time is important, and contributes to the congeniality, success and well-being of both individuals and the group!
