DAY 2  
Tuesday  
10/22/24

### Entebbe to Queen Elizabeth National Park

Queen Elizabeth National Park is in the Western Region of Uganda, spanning the districts of Kasese, Kamwenge, Rubirizi, and Rukungiri. The park is approximately 250 miles by road southwest of Kampala, Uganda's capital and largest city.

#### Fly to Kasese

Get up early this morning for your flight from Entebbe to Kasese. The flight will be about an hour and a half.

#### Lunch and Afternoon

Arrive at the lodge in time for lunch. During your stay here, you have a complimentary half-hour massage, so please be sure to schedule it upon arrival.

This afternoon you have your choice of activities. You can go on a short gorge walk, a beekeeping tour, or just enjoy the pool.

#### Welcome Dinner

Enjoy a lively welcome dinner as you get to know your fellow travelers this evening. Share stories and learn about why each woman in your trip is excited to explore Uganda!

DAY 3  
Wednesday  
10/23/24

### Queen Elizabeth National Park

The chimpanzee, also known as the common chimpanzee, robust chimpanzee, or simply “chimp,” is a species of great ape native to the forests and savannahs of tropical Africa. It has four confirmed subspecies and a fifth proposed subspecies. The chimpanzee and the closely related bonobo are classified in the genus *Pan*. Evidence from fossils and DNA sequencing shows that *Pan* is a sister taxon to the human lineage and are humans’ closest living relatives.

**Notes on Today** Only seven guests at a time can trek to see the chimpanzees. Half of your group will do this day as written below, and the other half will do the activities in the opposite order. This is to ensure that the chimps are as well protected as possible.

**Chimp Tracking** After an early breakfast, transfer to the Kyambura Gorge, which is a stark contrast with the surrounding grasslands. Start tracking chimpanzees, one of the closest relatives to humans. The chimp population is very mobile, and viewing can be unpredictable. Plan on a strenuous hike for about two and a half hours. Be prepared with all-weather gear.

**Lunch** Have lunch back at the lodge after your time with the chimpanzees.

**Cruise the Kazinga Channel** Head out on a cruise on the Kazinga Channel, which flows between Lakes Edward and George. Kazinga is home to one of the greatest concentrations of hippo in Africa and herds of elephant, buffalo, and other animals come to drink at the water’s edge. The channel is a magnet for water birds, with great flocks of pelicans and other birds on the shore, and a great spot to see African fish eagle. The boat trip will be about two hours.

DAY 4  
Thursday  
10/24/24

### Queen Elizabeth National Park

Common chimpanzees have a standing height of 3-5.5 feet; adult males weigh between 88 and 130 pounds, and females weigh between 60 and 110 pounds. The arms of a chimp are longer than its legs, and the hands have long fingers with short thumbs and flat fingernails. Their feet are adapted for grasping - their big toes are opposable.

**Chimp Tracking** Depart early this morning for the Kalinzu forest where you will go trekking and look for chimpanzees. You have about a 50% chance of seeing chimpanzees, but the plant life and birds you will see along the way are well worth the hike! The hike will be between two and two and a half hours.

**Lunch** Have lunch back at the lodge.

**Women's Coffee Cooperative** The Omwani Women's Coffee Cooperative is a community-based initiative designed to provide vocational training to women and an alternative, but sustainable source of income. Eleven local women and their families are actively involved in the cooperative. At least 30% of the group is HIV positive and many are widowed. They tend to over 1,500 Arabica and Robusta coffee plants in 100 acres of rejuvenated land and process the coffee by hand at a communal processing plant. Members of the cooperative commit to growing the coffee organically, without the use of pesticides or chemical fertilizers. Learn from the women about their lives and families.

DAY 5  
Friday  
10/25/24

### Queen Elizabeth National Park

The most social of the big cats, lions live in groups called prides, comprised mostly of females, cubs, and only one or two adult males. Typically prides have 6-12 lions but can sometimes have more than 30 members. Superior hunters, lionesses inherit the same territories as their mothers while young males roam until they drive out old males from other prides to take over leadership.

#### Lion Tracking

Heading out with a lion researcher is one of the most interesting experiences you can have in Uganda and is only possible within Mweya Peninsular of Queen Elizabeth National Park under the Uganda Carnivore Project. Join the researchers in the field as they track lion in their natural habitats. This will happen either in the early morning or the late afternoon, and tracking lasts between one and three hours.

#### Lunch

Have lunch back at the lodge after your time with the chimpanzees.

#### Afternoon at the Lodge

Enjoy lunch at the lodge. Choose an optional activity offered by the lodge, or just relax by the pool.

DAY 6  
Saturday  
10/26/24

### Queen Elizabeth National Park to Bwindi Impenetrable Forest

Uganda, the emerald jewel of East Africa, is renowned for its diverse landscapes which include the snowcapped peaks of the Ruwenzoris, the grassy plains of Kidepo, the headwaters of the Nile River, and the immense Lake Victoria. But it is Bwindi Impenetrable Forest, home to the endangered Mountain Gorilla, that draws travelers from all over the world.

#### Game Drive en Route

Pack up and leave your lodge this morning, driving through Queen Elizabeth National Park. Search for tree climbing lions as you travel through the park. Arrive at your lodge in Bwindi in time for lunch.

#### Afternoon at the Lodge

Enjoy the afternoon at the lodge. There is a beautiful walk to a river at the edge of the property that you might want to try. Have dinner as a group this evening.

DAY 7  
Sunday  
10/27/24

### Bwindi Impenetrable Forest

Bwindi Impenetrable Forest is an expansive primordial forest set on the edge of the Albertine Rift in southwestern Uganda. Known as one of the last strongholds of the endangered Mountain Gorilla, you can spend your time trekking amongst the trees in search of these tranquil, yet massive apes.

#### Gorilla Trekking

Head out this morning on a gorilla trek. A maximum of eight tourists is allowed in a group, so your group will split into two. Other tourists might join your trekking group as well. You'll carry your packed lunch in your backpack, and you'll trek for two to eight hours. If you prefer to not carry your backpack, you can hire a personal porter for \$15-20 at the trailhead. You'll want hiking boots, waterproof pants, a waterproof jacket and thick gloves (think gardening gloves) to protect from nettles.

On this trek you have a 90% chance of seeing the gorillas. Once you locate a group of gorillas, you are allowed to spend one hour with them. Enjoy your lunch somewhere in the forest along the way.

#### Return to the Lodge

Return to the lodge late this afternoon and share stories with the women in your group about your gorilla experience.

DAY 8  
Monday  
10/28/24

### Bwindi Impenetrable Forest

Tea has proven to be a very useful buffer crop when planted between human communities and forest areas where wildlife live. Animals do not eat tea so feel no need to come out of the forest to “crop raid” which is the source of much human-wildlife conflict in areas around National Parks.

#### Tea Tour

Simple tea processing in partnership with the local communities began at the lodge in 2013. Head out to see how tea is grown, picked, and traditionally processed in Uganda. You will learn how black, green, and white teas are produced and differentiated.

#### Bwindi Community Hospital

Walk through the local village and learn about the community as well as Bwindi Community Hospital. The hospital started as a health clinic under a tree and now provides vital medical and educational services to over 60,000 people.

#### Ride for a Woman

After lunch at the lodge, visit the Ride for a Woman project. Women started a business to rent and repair bicycles. Since the start of their business, they have evolved to do other projects including weaving and sewing. They are also starting a budget accommodation for backpackers. Try your hand at weaving as you get to know these remarkable businesswomen.

DAY 9  
Tuesday  
10/29/24

### Bwindi Impenetrable Forest

As you search for Gorillas, trek through rainforest that is alive with the calls of colorful birds and the chattering of vervet monkeys and littered with fresh spoor of the mountains' elusive populations of buffalo and elephant. This primeval wilderness provides the dramatic setting for a truly extraordinary wildlife viewing experience.

#### Another Gorilla Trek

Head out on another gorilla trek today. Hike up and down the steep, densely forested hills. Coming across the gorillas camouflaged in the vegetation is an awe-inspiring moment.

#### Lunch

You'll either have a packed lunch today or have lunch at the lodge - it depends on how long you must trek to find the gorillas.

#### Afternoon to Relax

Take this afternoon to relax after your strenuous trekking day. Walk around the property, read a book, or chat with your AdventureWomen friends.

#### Farewell Dinner

Have a farewell dinner with your new AdventureWomen friends. Reminisce over all the memories you have made and celebrate the end of an amazing journey through this truly spectacular country.

### Adventure Travel Today

At AdventureWomen, we want everyone to understand that our excursions are adventure travel vacations and not "tours." We define "adventure travel" as travel in which one **actively participates**, as opposed to a "tour," in which one is more or less a passive observer. AdventureWomen designs and organizes vacations all over the world for women who want to **experience an active, out of the ordinary vacation, and meet new friends**. Most of all, we want our trips to be **fun!**

**good-natured realist and have a sense of humor!** Adventure vacations, by nature, require that participants be self-sufficient, flexible, and able to accept situations as they exist, and not just as they would have preferred or expected them to exist. The constraints of scheduled group traveling also necessitate that each of us be understanding of and sensitive to others. **Being on time** is important, and contributes to the congeniality, success and well-being of both individuals and the group!

In this spirit, the successful adventure traveler should be a
