Adventure Travel Today

We define “adventure travel” as travel in which one actively participates, as opposed to a “tour,” in which one is more or less a passive observer. AdventureWomen designs and organizes trips all over the world for women who want an active, out of the ordinary experience, and meet new friends. **Most of all, we want our trips to be fun!** In this spirit, the successful adventure traveler should be a good-natured realist and have a sense of humor! Adventure trips, by nature, require that participants be self-sufficient, flexible, and able to accept situations as they exist, and not just as they would have preferred or expected them to exist. The constraints of scheduled group traveling also necessitate that each of us be understanding of and sensitive to others. Being on time is important, and contributes to the congeniality, success and well-being of both individuals and the group!
